

## MEET FLYERS TUNE UP PLANES FOR TRIAL SPINS

Public Not to Be Admitted to Field During Preliminaries to Begin Middle of This Week.

### CHIEF OF ARMY ENTRANTS ARRIVES

Maj. H. M. Hickam and Two Assistants Reach City in Plane, Coming From San Antonio, Tex.

Contestants in the various events of the International Air Races, to be held beginning next Monday at St. Louis Field, will begin their trial spins over the 30-mile triangular course about the middle of this week. Many of them have already reached St. Louis, where they have been temporarily quartered, and it is expected that all will have reached St. Louis before Thursday. The public will not be admitted to the field during these preliminaries, nor will parking of automobiles be permitted along the roads skirting the field.

Among today's arrivals were Maj. H. M. Hickam, who will command the Army entrants. He came by plane from Kelly Field, San Antonio, Tex., accompanied in De Havilland planes by his two assistants, Lieut. Edward Bailey and Lieut. Edgar Dunn.

Field in Good Condition. St. Louis Field is in excellent condition for the races. The heavy rains of the last 10 days packed the new earth with which the hollow spots had been filled, and it was quite dry yesterday. Today's sun will put it in perfect condition. The field is so drained that it can be used for flying within two days after any rain.

The campaign for the sale of 150,000 tickets was started today by several teams that will canvass all business, public buildings and factories, and each citizen will be urged to help finance the meet by taking tickets. The advance sale has been heavy, but not sufficient to meet the tremendous overhead, through which St. Louis is to have a permanent air terminal equipped to care for the city's needs for many years.

Dirigible Lands at Field. Although it had been announced that the public would not be admitted to the field yesterday, thousands of persons went to the field by street car and automobile and under favorable conditions will average between \$5 and 20 miles an hour. The machine has been entered in the "On to St. Louis" race for the flying club of St. Louis trophy.

MILE-WIDE WREATH LAID ON OCEAN FOR DESTROYERS' DEAD

Continued From Page One.

the Paul Hamilton and the Farquhar, vessels of the division last in line when Squadron 11 went on the rocks off Honda. They were loaded with blossoms. Bluejackets went aboard the survivors of the Delphy's crew and the Young's, the two destroyers which suffered most in point of casualties off Honda. Then the ships steamed back, and thousands watching them from the dock and waving final tributes.

Would Not Be Comforted. In the bow of the Kennedy were massed the floral tributes which had beautified the speakers' stand in the quadrangle and countless other offerings of flowers which civilians, officers and enlisted men had brought.

Among the banks of flowers in the bow, a woman sobbed, clutching a little bouquet of carnations. Beside her, her arm about her shoulder, stood a man in civilian clothes who talked to her in low tones, but she would not be comforted. She was the mother of Mrs. C. A. Reddock, widow of the radio man who went down with the Young.

The widow herself was to cast the first flowers upon the water when the destroyers described their mile-wide circle but beyond the point. She waited for the moment of this ceremony, the first of its kind in the annals of the American navy. She clung to the brass rail before her. A line of bluejackets formed along the starboard rail, near the bow, a pace behind them, stood a second line of women, officers' wives and others, their arms piled high with vari-colored blossoms.

Flowers Cast Upon Water. Capt. William Gordon Roper, commander of the 32d Division, gave an order; signalmen passed the word to ships astern. At the prow of the Kennedy, now leading the six destroyers in a wide circle, Mrs. Reddock threw to starboard her armful of flowers.

Immediately the bow of the vessel became a moving mass of color, the women passing their loads of blossoms to the men at the rail who then threw them reverently upon the water.

On ships astern similar ceremonies were repeated. Another signal flashed from ship to ship. The gray destroyers swerved sharply from their circular course, leaving a wide wreath of flowers glowing in the sun. Squadron 11 had honored its dead.

C. T. Lindington Coming in Sport Model Plane.

Special to the Post-Dispatch.

DAYTON, O., Sept. 24.—Flying a sport model two seater Farman airplane, C. T. Lindington, one of the organizers and secretary-treasurer of the National Aeronautic Association, will be in Dayton Wednesday en route to St. Louis to witness the international air races. The aircraft, owned by Lindington is a novelty because of its smallness and lightness. When loaded with gasoline and oil, it weighs less than 500 pounds. It develops 60-horse power, makes 20 miles to the gallon of gasoline and under favorable conditions will average between \$5 and 20 miles an hour. The machine has been entered in the "On to St. Louis" race for the flying club of St. Louis trophy.

## SAFE BLOWERS AT KINGS THEATER GET \$700 AT 7:45 A. M.

Continued From Page One.

Safe blowers obtained \$700 in cash and a number of non-negotiable interest coupons clipped from bonds from the safe at the Kings Theater at 7:45 a. m. today. The interest coupons, at first thought to be negotiable, later were found to be numbered. Indorsed checks aggregating \$2000, at first thought to be missing, later were found.

The statement of the sum taken is that of William Goldman, manager of the theater, who said that the cash was that portion of Saturday night and Sunday receipts of the theater which could not be carried into an upper compartment of the safe, which is protected by a separate door. The robbers were frightened away without having forced this door, the chance passing of a pedestrian at the time they exploded a charge of nitroglycerin in the safe's outer door having resulted in an alarm which got the police on the scene. Goldman said that the sum in the separate compartment "might be" between \$3000 and \$10,000.

Watchman Had Departed.

It is the habit of the night watchman to leave the theater upon arrival of janitors and he did so today at 6:15 a. m. upon the coming of Clarence L. Gough, 24, of 3424 Morgan street, and a negro, to be identified by the police, who opened the north and south side doors and began sweeping. At about 6:45 o'clock three men holding handkerchiefs to their faces and bearing rifles entered the south side door and commanded Gough and the night watchman to hold up their hands. They did so and were marched to a smoking room where one of the trio stood watch over them. The first man was released by a second in about two minutes. The second man forced Gough and the negro into a small room adjoining the smoking room and closed the door. They believed that the man stood guard and remained quiet.

Alarm Given by Passer-By.

A bottle which contained a substance declared by the police to be nitroglycerine and some soap was found in the office, leading to the conclusion that the blowers had used the safe door. The charge was sufficient to blow the door across the ticket office and against a marble counter with such force as to shatter the counter. A fragment of the marble flew through one of the windows and past the ear of a passing pedestrian so swiftly as to cause him to run about 200 feet south, to the fire station of Engine Co. 43 and to announce that someone within the theater was shooting at him. The firemen called the police. When they arrived, the safeblowers had fled, though no one in the neighborhood had witnessed their departure. Most persons who heard the explosion in the neighborhood set it down as the backfire of an automobile.

Some of the firemen said today that they recalled seeing an automobile with three men in it waiting near the theater for two hours following 11:30 o'clock last night, as if they were expecting someone from the theater to carry away its remains. Goldman said that his loss was protected by insurance.

REV. M'GEEHEE SAYS HE HAS RESIGNED; TO SPEAK FOR KLAN

Continued From Page One.

I present this check publicly, not for ostentation, not for advertising, but to serve notice on the enemies of the Klan in St. Louis, and especially the newspapers, that they are not going to put anything over a worthy member of our organization and set by with it.

The speaker went on to say: "They may be congratulating themselves or the thought that they have driven Dr. McGeehee from Haven Street Church, but what have they accomplished? He will not be compelled to work for the Klan at any sacrifice of salary."

It will be recalled that on Aug. 21 last McGeehee and Bishop McMurtry, his presiding officer, held a stormy conference here over the pastor's Klan activities. Mr. McGeehee charged a statement that the Bishop launched him on the jaw. This Bishop McMurtry denied, and Mr. McGeehee was persuaded by friends to drop civil charges against the Bishop. A church court investigation of the incident was requested by McGeehee. Last April Bishop McMurtry ordered McGeehee not to preach on the Klan. Bishop McMurtry announced at the time charges were made against him by McGeehee that the cause of the last quarrel between them was his refusal to recant the statement that the Klan was a "harmless" organization. "You will get no recantation from me," the

He said that, while bills were being passed, he saw a man in a suit and tie, who he believed was a member of the Board of Aldermen, relating to duties and obligations of the Manufacturers' Railway, a man called at his office and said that for \$15,000 he could pass the bills. He said he believed the man was a member of the Board of Aldermen, but he refused to answer for fear of self-incrimination, he could not have been held, as any person has the constitutional right to refuse, for that reason, to answer questions. Browne said, however, that he had done "no wrong, by word or action."

Assaults Newspapers. Mr. Crawford, last night, preceded his discussion of the McGeehee case with a series of accusations against newspapers. He charged that the trouble in Oklahoma had been misinterpreted by the press and called the uproar there "a second Mer Rouge." "The Klan is biding its time," he said, and will show God, Walton a thing or two when election day comes. He pointed to the fact that Oklahoma newspapers which have fought the Klan have denounced Walton for his activities and asserted that there has been less lawlessness in Oklahoma since the Klan was organized than during any previous period.

"Oklahoma is virtually controlled by the Klan," he asserted, "as are the states of Indiana, Ohio and Illinois. We will control Missouri before the next election."

He added that he was not a member of the Klan, but that he was a member of the "Klans of the future." "I am a member of the Klan of the future," he said, "and I am a member of the Klan of the future."

## Mrs. Ward Called to Testify in Case Against Husband

Continued From Page One.

Attorney-General Sherman was the first to question her, but his interrogations were brief and were made obviously for the simple purpose of having her on the stand that the prosecution might question her after the defense had.

After inquiring about the nurse maid for the Ward children, Sherman turned her over to the defense for cross examination.

The Attorney-General has asked her if Lulu Beryl, the nurse maid, was outside of New York State, but still in her employ, and she answered, "Yes." After Mrs. Ward had said that Mrs. Beryl was a nurse for a picture of a boy and a girl, and asked: "Are these the children of Mrs. Ward identified the photo and then it was passed among the jury.

Testimony Compared. Trooper Greene testified that he had discussed the case with Trooper Collins or with Mrs. Still, and he was excused after the prosecution had compared his testimony before two grand juries, which it was shown coincided.

The objection of the State and despite the admission of the State that the procedure was "unusual," the defense was permitted to call its first witness before the prosecution had finished its case. This was Mrs. Still, who corroborated Trooper Greene's denial. She was excused and her testimony taken from the minutes as irrelevant.

Attorney-General Sherman notified the defense that the State desired to question Ralph B. D. Ward, brother of the man on trial, and Mills said that he would be available tomorrow. This was the first day that Ralph has been absent from trial.

Henry H. Busner, a glass salesman, called by the prosecution, identified an order received by him to replace glass broken in Ward's coupe.

Mrs. Inez O. Peters, mother of Clarence Peters, who Ward is charged with having murdered, was called to the stand by the prosecution. Ward, who had been smiling noticeably during the testimony of Sheriff Werner, the previous witness, sat bolt upright in his chair and became very tense, looking when Mrs. Peters took her place on the witness stand.

For six minutes Mrs. Peters was questioned by attorneys for the State. As she told how her son had left home for the last time she wept audibly, often stopping her testimony, unable to control her emotion.

Complete silence prevailed in the courtroom as the mother of the slain man told of the last few letters she had received from her son before he met his death. She was not cross-examined.

Many of the balloons experienced great difficulty, owing to rain and wind. The United States Navy A-659 was slow to rise, Lieut. Lawrence evidently being extremely reluctant to part with his basket. It is generally agreed that none of the competitors had a more complete or more scientific equipment than Lawrence, who was considered favorably for the cup. The navy balloon was the only one carrying pigeons.

"Bad luck," he said, "and nobody's fault. That squall put an end to the old St. Louis, which I expected to abandon without regret so soon as the north, for I meant to sacrifice the gain of a mile."

To add to the excitement, thick clouds which had been creeping over the hills suddenly opened and the rain teemed down. The three remaining balloons were almost invisible and the crowds of spectators made a hasty departure through ankle-deep mud. The direction taken by the first 14 balloons was north-east.

## MRS. STOKES' CHARGES TO GO TO GRAND JURY

It Will Get Chance to Sift Story Husband Tells to Ruin Her Reputation.

By the Associated Press. CHICAGO, Sept. 24.—Announcement that the county grand jury would have an opportunity to investigate the charges of Mrs. Helen Elwood Stokes that her husband, W. E. Stokes, wealthy New Yorker, whom she is suing for divorce, and his agents, have sought to ruin her reputation, was made today by Assistant State's Attorney Charles S. Wharton.

The announcement came after a week of bizarre testimony with a climax at 2:30 o'clock this morning, when Mrs. Stokes appeared with her counsel in the county building and confronted a half dozen persons, mostly former negro attaches of cafes and resorts on the south side. She defied any of them to identify her as an habitue of any resort, and all professed themselves unable to identify her although some of them were alleged to have admitted that Mrs. Stokes had been in the "club."

Robert H. Lee, negro Special Deputy Sheriff, was asked to have confessed that he had been employed by her to obtain evidence that before her marriage she was an inmate of the notorious "Everleigh club."

Lee, according to Wharton's announcement, said he had been employed by counsel for Stokes last July.

"It was explained to us that evidence was wanted to show that Mrs. Stokes had been an inmate of the 'Club,' Lee was quoted as having told Wharton.

"The first person I asked, a former housekeeper, told me it was 'all bunk.' But the next six made affidavits."

Frank Hubert, a negro, one of the affiants, also stated to Wharton that the woman he knew was "not Mrs. Stokes at all. She was a little girl with bobbed hair and her name was Dorothy, not Helen." Another of the affiants, Mrs. Nellie Finlich, an aged negro, said she had been given \$10 "to sign a paper. But I can't read and I don't know what was in it."

AMERICAN SEAPLANE WRECKED

Unidentified Man Ends His Life at Hardware Store on North Sixth Street.

A man about 40 years old entered the Central Hardware Co. store at 811 North Sixth street, today at 8:15 a. m. and approached a counter, on which some butcher knives lay. He picked up one, ran a finger across its edge and shook his head negatively.

A clerk approached him and inquired his desires. The man made no answer, except to shake his head. He reached to the rear of the case, opened it and took out a razor. He ran a finger along its edge, then quickly lifted it and cut his throat. He staggered out the front door and fell dead on the sidewalk.

Cards in his pockets bore the name of Thomas Laine. One was of membership in the local carpenters' union; the other for treatment at the Alexian Bros. dispensary. There was no money in his pockets.

## MAN KILLED, 6 PERSONS HURT IN AUTO SPILL

Car Skids When Driver Tries  
to Pass Another and Turns  
Over Three Times.

A verdict of accidental death was  
returned by a Coroner's jury today  
in the inquest in the case of Robert  
L. Chestnut, 24 years old, of 810  
Buchanan street, who was fatally in-  
jured yesterday afternoon, when a  
car in which he was riding over-  
turned at a point south of East St.  
Louis. Six other persons were in-  
jured, two of them seriously.

Two witnesses at the inquest tes-  
tified the left rear wheel of the au-  
tomobile was defective, and col-  
lapsed when the driver swerved his  
car into some loose chat at the side  
of the road, in an effort to pass an-  
other machine. Chestnut was in the  
back seat of the wrecked car, which  
rolled over three times. His chest  
was crushed. He died at 5 p. m.  
yesterday at St. Mary's Hospital,  
East St. Louis.

Overturning of an automobile  
south of East St. Louis yesterday  
afternoon caused the death of one of  
its occupants, serious injury to two  
and lesser injuries to four others.  
Robert L. Chestnut, 24 years old, of  
810 Buchanan street, died at St.  
Mary's Hospital, East St. Louis, at 5  
p. m., a short time after the ac-  
cident, his chest having been crushed.

J. D. Holman, 54, of 1034 Hickory  
street, who was driving the machine,  
lost seven-passenger touring car, and  
his wife, Helen, 27, are in St. Mary's  
Hospital suffering from serious in-  
juries. Mrs. Holman's skull was  
fractured and Holman's legs were  
crushed. Mrs. Holman was riding in  
the front seat. The others injured,  
all of whom suffered cuts and bruises,  
were: The Holmans' 8-year-old  
daughter, Bernice; J. D. Shaffer, 40,  
of 1036 South Tenth street; his wife,  
Louise, 30, and Hubert Hall, 22, of  
1034 Hickory street.

The party was on the way to Fall-  
ing Springs, a pleasure spot opposite  
Carondelet, driving on the Old Ca-  
hokia road. Two miles south of East  
St. Louis, Holman, trying to pass an-  
other machine, drove into loose  
chat on the side of the road, which  
caused his car to skid, then turn  
over three times. Passersby extri-  
cated its occupants, who were pinned  
underneath. Chestnut had been rid-  
ing in the back seat.

## Fifteen Persons Hurt in Auto Acci- dents in St. Louis Sunday

Fifteen persons were injured in  
motor vehicle accidents here yester-  
day and last night, nearly all of  
which were cases of collision. The  
victims and their injuries are:

Harold Burian, 17, of 4114 Penn-  
sylvania avenue, fractured skull and  
lacerated scalp; Henry Dowd, 30, of  
213 North Sarah street, fractured  
collar bone; George Kiene, 50, of  
1209 Monroe street, fractured collar  
bone; his wife, who is 41, internal in-  
juries; Everett J. McKinney, 21, of  
3123 North N. street, fractured  
skull; William L. Judd, 33, cuts and  
bruises, and his wife, Effie, 33, in-  
ternal injuries, lacerated scalp, both  
of Florissant; Frank Gralike, 42, of  
4518 Mundock avenue, lacerated  
scalp; Walter J. Musick, 44, of 4942  
Devonshire avenue, lacerated scalp;  
Cal Humphrey, 50, of 2948 Easton  
avenue, internal and back injuries;  
Mrs. Pearl Palmer, 30, of 1533A Ba-  
con road, lacerated scalp; John Mc-  
tricker, 26, of 2223 South Twelfth  
street, concussion of the brain and  
internal injuries; Mrs. Elizabeth  
Gamble, 35, same address, lacer-  
ation of the head; William H. West-  
cott, 26, of 4045 St. Louis avenue,  
and his son, William Jr., 2, both cut  
and bruised.

The party was on the way to Fall-  
ing Springs, a pleasure spot oppo-  
site Carondelet, driving on the Old  
Cahokia road. The accident oc-  
curred two miles south of East St.  
Louis. The car returned to an up-  
right position after rolling over three  
times.

## SHOOTS FATHER-IN-LAW IN QUARREL OVER WIFE

St. Louisan, Formerly Policeman in  
Kansas City, Surrenders at  
Piedmont, Mo.

Special to the Post-Dispatch.  
PIEDMONT, Mo., Sept. 24.—B. E.  
Riddle, former member of the Kan-  
sas City police force and recently a  
resident of St. Louis, voluntarily sur-  
rendered to authorities here today  
after fatally shooting his father-in-  
law, D. W. Thomas, a farmer living  
12 miles east of this city, in Reyn-  
olds County.

Riddle went to the home of Thom-  
as yesterday to get his child, who  
had been in the care of his wife's  
parents since the separation of Riddle  
and his wife in Kansas City sev-  
eral months ago.  
Riddle says he shot his father-in-  
law in self defense. He declares  
that Thomas attacked him first with  
a knife and then with a shotgun as  
he started from the house with his  
daughter. In the altercation Riddle  
suffered several knife wounds. He  
was taken into custody by Reynolds  
County authorities and placed in the  
county jail in Centerville late yester-  
day.

## BERKELEY RECONSTRUCTION PLAN

City Planning Commission to Aid in  
Rebuilding Scheme.

By the Associated Press.  
BERKELEY, Cal., Sept. 24.—Resi-  
dents of Berkeley whose homes were  
destroyed by fire Monday will un-  
dertake no reconstruction until a  
committee of 18 property owners of  
the burned area confer with the  
Berkeley City Planning Commission  
and their joint plans are approved  
by the city council. It was decided at  
a mass meeting yesterday. Estab-  
lishment of a municipal camp to  
house fire victims was favored in a  
resolution adopted.

## Maine Business Men on Visit.

A group of Maine business men  
who are completing a tour of the  
western section of the United States  
in a special train, to study business

and industrial development, were  
guests of the Chamber of Commerce  
yesterday during their stop in St.  
Louis. About 125 are in the party,  
most of them from Portland, Me. The  
party started from Portland Sept. 2.  
The visitors were guests of a recep-  
tion committee at breakfast yester-  
day at Hotel Jefferson and at lunch-  
on at the Chamber of Commerce.

**Is a Bad Back Wearing You Out?**  
Are You Miserable With Daily Backache? Feel Tired, Stiff,  
All Worn Out? Then Why Not Follow the Advice  
of These St. Louis People?

**ARE** you crippled with a bad back? Do you get up lame and stiff; suffer torturing rheumatic twinges—drag through the day feeling tired, nervous and dispirited? Evening finds you utterly worn out—too weary to rest or relax?

Then you know something is wrong and you owe it to yourself to find the cause and correct it.

How about your kidneys? Have you given them any thought? Likely you haven't. But you should!

Your kidneys are the blood filters. When they weaken and fall behind, poisons accumulate, upsetting blood and nerves. The effect of this body-poisoning is quickly apparent.

Your back aches; you suffer sharp, stabbing pains at every sudden move; your head aches; you have dizzy spells and there's apt to be some annoying bladder irregularity. It's little wonder you feel weak, irritable, nervous and depressed.

But why continue in this miserable, half-sick condition? Why not help the kidneys before the trouble gets a firmer hold? Delay may mean dropsy, gravel or fatal Bright's disease. Begin by using **Doan's Kidney Pills**. Doan's have helped thousands. They should help you. Ask your neighbor!

**"Use Doan's," Say These St. Louis Folks:**

**PHILIP WOLFE**, 2211 S. Jefferson Av., says: "I had kidney disorder and the secretions were unnatural. My back stiffened up, making it almost impossible to bend, and there was a constant severe pain across the small of my back which seemed to hold me down. I used Doan's Kidney Pills and have always found them to give me good relief. I was a street-car motorman for 35 years and know that that is what brought on my trouble, and for the past two years my relief has become permanent so that I believe I am cured."

**MRS. G. GROETEKER**, 3811 Kossuth Av., says: "I felt miserable and all dragged out. I had hardly enough ambition to do my housework. My kidneys were in bad condition. My back was lame and when I first got up in the morning I seemed to have a heavy weight across my back holding me down. A little extra work made this trouble worse and when a friend recommended Doan's Kidney Pills I decided to try them. Doan's proved to be just what I needed and gave me relief from the complaint."

## Personal Hygiene

EVERY well-informed physician or chemist knows that the continued use of poisonous, burning fluids in personal hygiene has become a tremendous source of ill-health and unhappiness throughout the United States. This is an indisputable fact.

The following statement on the subject is made by the head of a New York laboratory with an international reputation:

"Bichloride of mercury and ureol compounds when used in sufficient strength to possess any value as germicides are exceedingly destructive to tissue. Bichloride burns the mucous membrane and if used repeatedly will deaden and toughen the tissues with which it comes in contact. There is always the danger of mercurial poisoning through its use. Most phenol and cresol compounds are saponified in an effort to reduce the burning and irritation of these poisons. In spite of this they are corrosive and caustic in their action and the soap ingredients wash away necessary gland secretions. Their continued use frequently results in an area of scar-tissue and dullness and hardening of the membrane."

There was some excuse in the past for the use of poisons, burning antiseptics—there was nothing to take their place. This is no longer true. Zonite, a non-poisonous, non-irritating, antiseptic that may be used at a great germicidal strength on the mucous membrane with no harmful effect whatsoever, is here to replace them.

Zonite is a colorless liquid that does not stain, destroys odors and leaves no odor of its own. By standard laboratory test it has more germicidal power than pure carbolic acid. Authorities absolutely and unqualifiedly recommend it.

## COST OF LIVING HIGHER THAN EVER

Rent Main Item in Advance  
Which Is 75 Per Cent More  
Than in 1914.

By the Associated Press.

NEW YORK, Sept. 24.—The cost of living in the last six months has risen to a point higher than ever before, it was announced yesterday in a statement by the National Industrial Conference Board, but the earnings of the average American working man have gone, proportionately, even higher.

Rent has risen more rapidly than any other item in the family budget having climbed to a point 75 per cent higher than in 1914. From March 1922 to last July, there was a steady rise in the cost of living amounting to 4.7 per cent.

Between March and July of this year food prices soared 3.5 per cent, to a point 47 per cent above the pre-war level. In Washington the increase was 58 per cent; in Chicago and Detroit 57 per cent; in Richmond 56 per cent as compared with 27 per cent in Salt Lake City, which reported the smallest advance. The potato led all other varieties of food, having climbed 147 per cent since 1914.

In the rent item, inflation seemed to have subsided somewhat in the larger Eastern cities, except in Washington, where there was an increase of between 11 and 20 per cent.

### BASEBALL POOL WARNING

By the Associated Press.

FORT WORTH, Tex., Sept. 24.—A warning was issued by the District Attorney and by police authorities today against the operation of baseball pools on the forthcoming Dixie series. Such operators will be arrested and prosecuted, it was announced.

### CHANGE OF VENUE IS DENIED

Special to the Post-Dispatch.

HARRISBURG, Pa., Sept. 24.—Circuit Judge A. E. Summers has denied the motion for change of venue filed by attorneys representing the Southern Illinois Coal Co., the latter having some months ago brought suit for \$175,000 against Williamson County for damages growing out of the riot near Herrin more than a year ago. The plaintiff had contended that it could not get a fair trial in Williamson County and sought to have the case transferred to some other county.

The ruling of Judge Summers means that the trial must be held at Marion, county seat of Williamson County.

Unique Among Washing Machines Is This

## Maytag Gyrafoam Washer

There Is No Other Just Like It

The MAYTAG is made of thick, seamless, cast aluminum; no rusting or corroding. It works by the new "Gyrafoam" principle, washes in about five minutes. Its legs are adjustable, does your work at a convenient height. Its wonderful wringer opens like a book and is self-adjusting to all thicknesses. Even the drain pan is automatic, never spills water on the floor. Come in and see this latest improvement in electric washers.

## SUSPECT IN MURDER OF GIRL IS MARRIED MAN

High School Pupil, Clubbed to Death, Had Expressed Fear of Him.

SPECIAL TO THE POST-DISPATCH.  
MILLVILLE, N. J., Sept. 24.—Suspicion of the murder of Emma Dickinson, 15 years old, of the Millville high school, whose mutilated body was found under a clump of trees near here Saturday, centered today on a young married man of Bricksboro whose name police refused to make public.

They said today that the girl repeatedly had expressed fear of this man. Girl friends told them that Emma was afraid to go out at night and because of this man's attentions had become a member of a church nearer to her home in Bricksboro.

The suspect is the owner of a Durant automobile, police learned. A hub cap of a Durant machine was found near the girl's body. Joseph E. Smiley, member of the coroner's jury, and Mrs. J. W. Berner, mother of one of Emma's school friends, said the girl had told them of her fear of the man in question.

Smiley told County Detective Lore that Emma once told him the Bricksboro man threatened to kill her after an automobile ride she took with him.

The girl's father, 55-year-old gardener, said today that he learned of Emma's fear of the dark and built her a little garden in the rear of the cottage to keep her contented at home.

The father, police learned, was seen at Hyson Camp's Dairy on the night of Sept. 13, when the girl disappeared, soon after Emma called to leave an order for milk. Asking the direction taken by his daughter, he set off along the same road.

At an inquest held at Bridgeton, it was determined that the girl's skull had been crushed by repeated blows with a club, her right arm broken and her body badly bruised.

"Shucks" Pruett Loses Watch in Fight.  
Hubert "Shucks" Pruett, a pitcher for the St. Louis Browns, told policemen last night he had lost a watch, valued at \$60, a present from admiring fans, when he engaged in a fight with a negro at Sixteenth street and Washington avenue. He and Asbury Withers of Columbia, Mo., were waiting for a street car, he said, when two negroes made insulting remarks. He asked for an explanation and one of the negroes attacked him. After the scuffle, in which both negroes were knocked down, he said, he missed the watch. It is engraved with his name.

**THREE MEN ARRESTED AS ROBBERY SUSPECTS**

Held After Confession by Alleged Participant in Sandoval (Ill.) Bank Robbery.

The cases of three men, arrested here early yesterday as suspects in the robbery of the First National Bank at Sandoval, Ill., last Wednesday, probably will be laid before the grand jury this week, officers of Marion County, in which the robbery occurred, said today. The written confession of a fourth man, implicating, directly or indirectly, the three taken here, is said to be in the hands of officers.

The three suspects, captured as they slept in a rooming house at 31 North Sarah street, gave their names as Thomas Tracy, 32 years old; Edward Fischer, 25, and Herman Meyers, 23. All are former convicts, paroled to St. Louis from Illinois institutions. Two of them were sentenced for participation in a bank robbery at Hoffman, Ill., near Sandoval, a few years ago, representatives of the Burns Detective Agency declare. The Burns men, the Sheriff and other officers of Marion County, aided St. Louis police in making the arrest.

Alleged Driver Confesses.

As has been told, H. H. Bellamy, cashier of the Sandoval bank, was compelled to arise at 2 a. m. Wednesday, by two armed and masked men to take them to the bank after they had bound Mrs. Bellamy. The robbers had obtained \$122,25, when Bellamy touched a burglar alarm in pretending to work on the time lock of the vault, in which was about \$5000, at the holdup men's command. They fled, taking the cashier back home, and escaped in an automobile waiting near the Bellamy home.

The driver of this car is alleged to have been John Felegik of Central City, Ill., said to be the man who confessed. Arrested soon after the robbery, he is said to have become enraged when told that the loot amounted to more than \$1200, as he had been given only \$365 on the basis of the \$500 "haul" the others told him was made.

Declare They Have Alibi.

The confession names Meyers and Tracy as the men who held up the cashier. Fischer, it says, met them after Felegik drove them to St. Louis and spent the next day changing the silver taken in the robbery into currency in East St. Louis. It was Felegik's "tip" that the men were taken at the Sarah street address.

The Illinois officers say they have information that Tracy was in Sandoval making inquiries about Bellamy's place of residence a short time before the robbery, and that Meyers ordered two pistols from a Centralia, Ill., pawnbroker about that time. A Luger automatic and a revolver were found in the men's room here. They had only a small amount of money. About \$250 found on Felegik was part of his share, he is said to have admitted.

Meyers, Tracy and Fischer all denied any part in the robbery and declared they had an alibi that would be "jury-proof." They waived extradition and were taken to Marion County yesterday.

Officers declined today to say whether Bellamy or his wife had been able to identify any of the men. Bellamy, at the time of the robbery, said it was so foggy that he could give only a meager description of the masked men or their automobile.

Search is being made for the fifth man, a stranger in Sandoval, said to have made inquiries about the Town Marshal, but officers doubt that he was connected with the holdup.

**DIES FROM BULLET WOUND**

Homer Patterson Was Shot After Argument in Saloon.

Homer Patterson, 27 years old of Willow Springs, Mo., died at the City Hospital at 8:45 a. m. yesterday from a bullet wound in the abdomen inflicted Sept. 15 by Roy C. Williams, 37, of McClure, Ill. They met in a saloon at 26 North Seventeenth street and had words.

Williams later was arrested at McClure. He asserted that Patterson had broken up his home. They became acquainted when both were working as engineers on a steam shovel, he said.

Held On Liquor Charge.

Charles Votruba, 27 years old, of St. Louis, is held for the Circuit Court at St. Charles on charges of driving an automobile when drunk and transporting intoxicating liquor. Votruba was arrested in St. Louis Thursday afternoon at the instance of Sheriff Grothe. He waived preliminary hearing before Justice of the Peace Tray Saturday and his bond was fixed at \$500 on each charge. Votruba was arrested Saturday night and a quart of whisky was found in his machine. He was released yesterday morning by City Marshal Linnebur and ordered rearrested by the Sheriff.

**SUPERVISION OF COAL INDUSTRY IS RECOMMENDED**  
Continued From Page 11.

soft coal is the larger and, from the point of view of the national economic life, the more important industry. Here the fundamental evil is overdevelopment, irregularity of operation and consequent forcefulness of miners and invested capital. This problem, like that of enticement, can be solved only by the Federal Government in co-operation with the industry, working on a national scale and with a clearly defined national policy. It is through the granting and withholding of transportation service through supervision that an equilibrium can be established between demand and output.

"The most convenient and practicable of the various possible methods of exercising the right of control over the interstate commerce in coal would appear to be the licensing of all who desire to ship coal from one state to another or to buy and sell interstate commerce, whether

## JUDGE GRIMM DENIES WEAPON CASE-MOTION

Tells Sidener He Takes the  
"Hard Way" to Bring  
Gangsters to Trial.

In denying a motion of Circuit  
Attorney Sidener for a final judg-  
ment discharging six members of  
the "Jelly Roll" Hogan gang who  
are charged with carrying concealed  
weapons, Circuit Judge Grimm, in a  
memorandum handed down today,  
calls attention to certain circum-  
stances that "may not have occurred  
to the Circuit Attorney."

The defendants, Patrick Scanlan,  
William Longo, Humbert Costello,  
Charles Mercurio, Harry Greenberg  
and John (Kink) Connell, were in-  
dicted jointly in a case where police-  
men found six revolvers in the floor  
of a machine, occupied by them.  
Judge Grimm had sustained a mo-  
tion to quash the indictment for the  
technical reason of misjoinder, it  
being held that the men should have  
been indicted individually.

Circuit Attorney Sidener then  
asked the court to enter a final judg-  
ment, which would have had the effect  
of discharging the defend-  
ants. It was the Circuit Attorney's  
intention to go next to the Supreme  
Court of Missouri seeking a writ of  
error, to hold the men under the  
original indictment, his theory being  
that this indictment was valid and  
that Judge Grimm was in error in  
quashing it. The Judge remarked at  
the time that this was taking the  
hard way of going about the matter.

In his memorandum today, Judge  
Grimm states that he denies the mo-  
tion because he considers this a  
wise and prudent course, adding  
that the court is not "disposed to  
stultify itself by ordering the dis-  
charges of the defendants, whom it  
has already held because it be-  
lieved a case could be made against  
them." This refers to the fact that  
the court ordered the men held for  
the next grand jury under individual  
bonds.

The Circuit Attorney's mem-  
orandum goes on, "seems desirous  
of an order to discharge on the  
theory that it would be a final  
judgment, adverse to the State, from  
which it might appeal. It may not  
have occurred to the Circuit At-  
torney that if the court made the order  
discharging the defendants at his  
request and upon his motion, he  
might find himself in a rather awk-  
ward position, for a party to a suit  
cannot request a certain ruling by  
the court and then, after obtaining  
what he has asked, complain about  
it and make it ground for an ap-  
peal."

The Judge points out that a num-  
ber of months to two years would  
elapse before an appeal was reached  
in Supreme Court. The next grand  
jury, which will be convened a week  
from tomorrow, will be in charge of  
Judge Grimm. It is presumed that  
if the Circuit Attorney does not take  
steps to have the indictment against  
these defendants individually, Judge Grimm  
will instruct it to act.

## MOTION FOR REHEARING ON U. R. CERTIFICATE ISSUE

Old Suburban Bondholders Seek to  
Reopen Action in Which Court  
Authorized Issue.

A rehearing on an order issued by  
Federal Judge Paris authorizing the  
receiver of the United Railways Co.  
to issue new receiver's certificates to  
refire outstanding ones, and to ex-  
tend two bond issues of the St. Louis  
& Suburban Railway Co. is sought  
by bondholders of the latter line,  
who today filed a request in Federal  
Court for leave to file a motion for a  
rehearing and reversal of the order.  
The Judge laid the matter over until  
Friday.

The bondholders take the posi-  
tion that extension of the bond is-  
sues, totaling \$6,500,000, will serve  
no useful purpose and will prolong  
the time before the company may be  
reorganized and the receivership  
lifted. These delays, it was asserted,  
preclude needed extensions and  
will result in damage to the public  
and property.

No objection is raised to the part  
of the order authorizing issuance of  
new receiver's certificates for retire-  
ment of outstanding ones, totaling  
\$4,200,000, and to pay off certain  
bonded indebtedness, but the bond-  
holders assert this should be a sepa-  
rate order, and that part relating to  
extension of the Suburban issues  
should be modified. The motion de-  
clares the valuation fixed on the  
United Railways property by the  
Public Service Commission was suf-  
ficient to care for the obligations,  
and the fact that the receiver and  
company are not satisfied with this  
valuation does not justify prolonging  
of operation by a receiver through  
extension of the bond issues.

That dingy film on teeth  
See the new beauty come

This test has shown millions the  
way to whiter, cleaner teeth. The  
results are quick and apparent.  
They have led dainty people of  
some 50 nations to clean their teeth  
in this new way. Now you should  
learn how much it means to you.

**It fights film**  
Your teeth are coated with a  
viscous film. You can feel it now.  
Much of it resists the tooth brush,  
clings and stays.  
Soon that film discolors, then  
forms dingy coats. That is why  
teeth become clouded.

Film also holds food substance  
which ferments and forms acid. It  
holds the acid in contact with the  
teeth to cause decay. Germs breed  
by millions in film. They, with  
tartar, are the chief cause of pyro-  
rhea. That is why tooth troubles  
are almost universal with people  
who do not fight film.

**You can do it now**  
Dental science has in late years  
found ways to fight that film. One  
acts to disintegrate the film at all  
stages of formation. The other  
removes it without harmful scour-  
ing. These methods were proved  
by many careful tests. Then a new-  
type tooth paste was perfected to  
apply them daily. The name is  
Pepsodent.

Now this new method has come  
into world-wide use. Leading den-  
tists everywhere advise it.

**Teeth feel clean**  
Pepsodent also multiplies the  
alkalinity of the saliva, also its

The results of this test will  
amaze and delight you. And  
they come very quickly.

Send the coupon for a 10-  
Day Tube. Note how clean  
the teeth feel after using. Mark  
the absence of the viscous film.  
See how teeth become whiter  
as the cloudy coats disappear.  
You will be convinced by  
what you see and feel.

**Protect the Enamel**  
Pepsodent disintegrates the film,  
then removes it with an agent far  
softer than enamel. Never use a  
film comb which contains  
harsh grit.

**Save their teeth**  
Pepsodent is more important to  
children than adults. Their teeth  
are most subject to film attacks,  
and the results often last for life.

Make this test for your sake  
and your family's sake. See the whiter  
teeth it brings. Feel the cleaner  
teeth. Then decide for yourself if  
those in your home should have  
these benefits continually.

# Judging by the Five Stymies He Laid, Max Marston Must Have Been Laying for Jess Sweetser

By Joseph F. Holland,  
Of the Post-Dispatch Sport Staff.

SPORTSMAN'S PARK, Sept. 24.—Eddie Dyer, who shut out the  
Cubs in his last out, faced the Brooklyn Dodgers in the opening game  
of the double-header today, and drew Burleigh Grimes as his op-

ponent.  
Eddie Altmann, who was re-  
leased by Branch Rickey two weeks  
ago, was signed by the Brooklyn  
Dodgers today.  
The attendance was only 2000 at  
this time, including a large num-

## Separate Coach For Each Player

In Addition, Yale Gridiron Stars Will Be Looked After by New Trainer.

By Walter Camp.  
(Copyright, 1923.)

NEW YORK, Sept. 24.—The announcement that George Conners, Exeter trainer, is going to Yale, means that the Bulldogs, equipped with expert coaches for every position, now has acquired one of the most experienced and successful trainers in the country.

The news is not so sweet for Exeter, where Conners has been the standby for 20 years, but it ought to mean a lot to Yale athletes.

Down at Athens, Ga., there is an earnest little group of pigskin chasers who can think of nothing except to win the Yale gridiron team. In fact, most of them have been able to think of little else all summer. Bennett, the Georgia captain, listened all summer to words of wisdom from Pfann, Cornell's star backfield leader, while both were working as athletic directors at Camp Denham, while Woodruff, Georgia's new coach, has been planning out his campaign and the Bulldogs of the South are coming North with the idea of showing the Yale Bulldogs a thing or two, in which to give before the Yale fray in which to get in condition, and if the Southerners do not get stage fright in the big New Haven bowl, they should give Yale a real workout.

# BROWNS 2, BOSTON 1, AFTER 5 1/2 INNINGS OF SECOND GAME

By a Special Correspondent of the Post-Dispatch.

BOSTON, Sept. 24.—After winning the first game, Manager Austin of the Browns sent in Ray Kolp to pitch the second contest of their double-header with the Red Sox here today.

Kolp was opposed by Howe. A play-by-play account of the second game follows:

**FIRST INNING.**  
BROWNS.—Gerber fanned. Ezzell singled to center. Tobin got credit for a single when his easy fly fell safe in front of Menosky and Reichle. Williams singled to right, scoring Ezzell and putting Tobin on third but was out trying for a double. Menosky to Fuller. McManus doubled to left, scoring Tobin. Jacobson filed to Menosky. TWO RUNS.

BOSTON.—Mitchell beat out a bunt to Kolp. Walters singled to left, sending Mitchell to third. Menosky fouled to P. Collins. On the hit and run, Burns was thrown out by Gerber, but Mitchell scored. Walters stopped at second. McManus threw out Harris. ONE RUN.

**SECOND INNING.**  
BROWNS.—Mitchell threw out P. Collins. Schleibner popped to Fuller. Fuller threw out Kolp. NO RUNS.

BOSTON.—Reichle was hit by a pitched ball. Fuller lined to McManus and Reichle doubled off first. McManus to Schleibner. Ezzell made a spectacular stop with his bare hand of McMillan's hard grounder and threw him out. NO RUNS.

**THIRD INNING.**  
BROWNS.—Gerber lined to Fuller. Ezzell walked. Tobin forced Ezzell. Burns to Mitchell. Tobin was caught stealing. Walters to Mitchell. NO RUNS.

BOSTON.—Howe grounded out to Schleibner. McManus and Schleibner disposed of Mitchell. Walters grounded out to Schleibner. NO RUNS.

**FOURTH INNING.**  
BROWNS.—Williams was safe on Fuller's fumble. Williams was caught off first, and was out. Walters to Burns to Mitchell. McManus bunted to the box and was safe when Howe fumbled the ball. Jacobson filed to Reichle. P. Collins forced McManus. Mitchell to Fuller. NO RUNS.

BOSTON.—Menosky beat out a hit to short. Burns hit into a double play, Kolp to Gerber to Schleibner. Harris struck out. NO RUNS.

**FIFTH INNING.**  
BROWNS.—Mitchell and Burns disposed of Schleibner. Kolp went out the same way. Gerber walked. Ezzell forced Gerber. Mitchell to Fuller. NO RUNS.

BOSTON.—Williams took Reichle's fly. Fuller filed to Jacobson. Ezzell threw out McMillan. NO RUNS.

**SIXTH INNING.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**SEVENTH INNING.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**EIGHTH INNING.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**NINTH INNING.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**TENTH INNING.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**ELEVENTH INNING.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**Twelfth Inning.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**Thirteenth Inning.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

**Fourteenth Inning.**  
BROWNS.—Tobin fanned. Williams singled to right. After fouling eight times, McManus walked. Menosky got under Jacobson's fly. P. Collins filed to Harris. NO RUNS.

## PRESSMEN SEEK AID OF CLERGY IN NEW YORK STRIKE

Committee to Request  
Churchmen to Ask That  
Publishers Recognize the  
Local Union.

By Leased Wire From the New York Bureau of the Post-Dispatch.

NEW YORK, Sept. 24.—David Simons, president of the defunct local union of pressmen, at the conclusion of a strike meeting in Town Hall yesterday afternoon, announced that a committee had been named to request leading churchmen of the city to ask the newspaper owners to recognize the old union.

From another source it became known that the old local had sent a committee to the publisher of the Brooklyn Times, on which Simons is employed as a foreman, to offer to return the men to work under the contract signed Friday by the newspaper owners and the heads of the International Printing Pressmen and Assistants' Union. The only condition attached to the offer was that the Brooklyn Times cease to use the combined heading of all the New York papers affected by the outlay strike. The offer, it is authoritatively stated, was refused.

Strike in Second Week.  
The efforts of the outlaid union to save itself by obtaining recognition from the proprietors at the expense of the International and the arrival of the advance guard of loyal International members to man the presses of the city were developments yesterday in the strike that today enters upon its second week.

Spectacular features were the denials of a paper from injuries received Saturday at the hands of a thug and the stamping of a meeting called by President Berry of the International in Town Hall by David Simons and his lieutenants in the old union.

To the invitation to attend this meeting, issued by Berry in the name of the parent organization of pressmen, 500 members of the defunct local responded. When Berry began to speak, after causing the removal of Simons from the platform, the chief of the old local called upon all to leave the hall and repair to Yorkville Casino.

"All members of 25," he declared in a temporary hall in what Berry later described as a semiotic, "are requested to leave. We will not be addressed by a strike-breaker."

Nearly All in Hall Leave.  
Perhaps one-half of the audience were on their feet when he spoke, the others remaining seated. As they showed no inclination to move out, lieutenants of Simons circulated through the hall, calling upon all to get out. Nearly all in the hall left. After they had gone and quiet was restored, Berry addressed the 25 persons remaining in the hall as though nothing had happened. Of the 25, six were reporters, another six were plain-clothes men, several were union officials from other cities, and very few were pressmen employed in New York.

These heard that before the international officers had signed the new contract with the publishers it was approved by a committee from the old union, who had said the contract gave the men 85 per cent of what they asked for. They also heard the head of the international promise to strip the papers of the country of pressmen if necessary to restore normal conditions in New York.

Until yesterday, he said, the international had put no men to work in New York. Now, he said, it would begin replacing the men on strike, adding that many of those who had struck would find it no easy task to obtain readmission to the international and the right to work in the union pressrooms of the United States and Canada.

"We Welcome Fight."  
"The fight is not of our seeking," he said, "but now that it is here, we welcome it. We will stabilize the newspaper pressrooms exactly as we straightened out the commercial pressrooms four years ago."

While Berry was talking to empty benches, Simons and his assistants were addressing 1300 men and boys in Town Hall, they having found it impossible to obtain the Yorkville Casino. At this meeting, according to Simons, the 1300 voted unanimously to remain on strike. He also said that members of "Big Six" union of printers, Cylinders Pressmen's Union No. 51, Feeders Local No. 23 and Job Local No. 1, the latter employed on book and job work, had promised help to the strikers. He denied Berry's assertion that a committee from the old union had approved the new contract before it was signed.

## FIRST WOMAN TO CLIMB GRAND TETON

### They Say Father's Generosity Misses Them

When Charles G. Strauss appeared in a Chicago court and formally adopted eight children of his wife by a former marriage, it caused much favorable comment. What a generous, big-hearted man, people said. Now the issue has become somewhat confused by the appearance of the first Mrs. Charles G. Strauss and her two children, Margaret, aged 12, and Carl, aged 14. The original Mrs. Strauss contends that her former husband is in arrears with his alimony.

Miss Eleanor Davis of Colorado Springs, Colo., climbed Grand Teton Peak, which is 13,747 feet high. It has been scaled but four times, and Miss Davis is the first woman to make the ascent. She was accompanied by Prof. Albert Ellingwood of Lake Forest College, Lake Forest, Ill. This photograph was made immediately after the return.

## PARADRESSES

## Children's Bedtime Story

By Thornton W. Burgess

**B**ROWNIE the Thrasher and Mrs. Brownie had made their home in the thick bushes along the old stone wall on the edge of the Old Orchard. It was a situation they liked. The bushes gave them good hiding places and they enjoyed being so close to the Old Orchard. When he feels like it Brownie is a wonderful singer. And all through the spring and early summer he added much to the grand chorus of the Old Orchard.

Brownie often went over into the Old Orchard to look for food. One day he made a discovery. There was a queer-looking thing made of wire, the same kind of wire that was used in the fence around Farmer Brown's henyard. It hadn't been there the day before, so of course Brownie eyed it suspiciously. He perched in a tree where he could look down on it. Of course he could look right through the wire netting, and there, spread on the ground, were some delicious tid-bits. Brownie flew down and went all around that wire thing. He found that on one side it was open.

But Brownie was too wise to venture in that day. In fact, he didn't go in the next day, nor the next. But by the fourth day he made up his mind that, whatever it was it was harmless. Each time he visited it, it was exactly as when he last saw it. Moreover, Bully the English Sparrow and the members of his family were boldly going in and helping themselves to the tid-bits spread there.

"There is no reason why I shouldn't have my share," said Brownie to himself, as he stood at the open side, looking in. Still he hesitated. It wasn't until Bully the English Sparrow saw him and tried to drive him away that Brownie fully made up his mind. He didn't propose to be driven away by such a blustering, impudent little fellow as Bully. He wasn't afraid of Bully and, just to show this, he walked right in and began to help himself to the dainties spread there. My, such good things as he found!

Queen Consort. Queen Mary is the soul of punctuality; Queen Alexandra is always late. But Queen Mary is never ruffled; she waits for Queen Alexandra without any sign of impatience.

As for the King, who is liable to fits of bad temper, the Queen's intimates are accustomed to the moments when she pats his hands—openly before the members of the household and quietly in public—and says: "There, there—why fuss? It's all right, dear. You are tired."

(Copyright, 1923.)

Such a feast! Brownie promptly forgot everything but filling his stomach. And then, without any warning, something happened. The open side of that wire thing dropped. Brownie was a prisoner in a big wire pen. Was he frightened? Of course he was frightened. He was terribly frightened. Wouldn't you be terribly frightened to find yourself suddenly made a prisoner?

Right away Farmer Brown's Boy

appeared. He looked pleased. He looked very much pleased. Brownie noticed it. A sudden suspicion came to him. This must be a trap, and Farmer Brown's Boy must have set it. His fear became greater than ever. And because of it he hated Farmer Brown's Boy. Yes, sir, he hated Farmer Brown's Boy. You know, people are very apt to hate those they fear. What was Farmer Brown's Boy going to do to him?

## Words of Wise Men

The greatest enemy to man is man.

He is unfit to manage public affairs who knows not how to rule at home his household.

Towers are measured by their shadows and great men by their calumniators.

Sudden movements of the mind often break out either for great good or great evil.

Confidence is a plant of slow

growth in an aged bosom—youth is the season of credulity.

Most men ask advice, but mean approbation.

A well-prepared mind hopes in adversity and is watchful in prosperity.

He who loses his temper is in the wrong.

The great law of culture is: Let each become all that he was created capable of being.

Men are never so likely to settle a question rightly, as when they discuss it freely.

## NOTES ABOUT WOMEN

Statistics show that nine-tenths of the women in China cannot write their own names.

At the age of 91 years, Mrs. Tabitha Ward, of Marlouville, Va., boasts of 200 descendants.

Miss Anna B. Hogan, of Jersey City, N. J., has been retained to defend a man charged with murder.

Membership in the Association of Bank Women is contingent upon holding an official or executive position.

# Cork, Linseed Oil, Burlap—that's Linoleum

**M**ILLIONS of people have linoleum in their homes. They know what a good flooring it is. And increasing thousands desire linoleum as their flooring, too. Unfortunately, they do not always get linoleum. They are a little uncertain as

to what linoleum is; so sometimes they buy floor coverings that look like linoleum, but which are not actually linoleum. Perhaps you are one of these. It is to help you to buy intelligently that we are going to tell you how linoleum is made.

### What linoleum is

Linoleum is composed of powdered cork and oxidized linseed oil pressed out to strong burlap. Now, cork is tough. It is the bark of the cork oak tree. Cut a piece of cork and see how tough it is. Cork gives to linoleum its durability, its capacity to wear for years.

Cork is tough

Cork does not absorb moisture. The linoleum surface is practically waterproof.

Linoleum gets its name from linseed oil. Exposed to the air, linseed oil oxidizes, turning into a tough, solid, rubbery film. Powdered cork and oxidized linseed oil unite perfectly to make a resilient, durable, yet flexible floor material.

### Why linoleum is hard to tear

Burlap is made from jute, which comes from India. Heavy rope is made from jute. The cork and linseed oil composition is pressed or "keyed" into the burlap under huge rollers weighing many tons. The burlap back gives linoleum its tensile strength. You can identify sturdy, nontearing, flexible linoleum by its burlap back. Look for the burlap weave.

The tough oxidized film of linseed oil (shown in the surface of paint) combines with cork to form linoleum

That is one sure way to know you are getting linoleum, not something with a pattern like linoleum on the top surface.

With this picture in your mind of what linoleum is and how it is made, you can more easily understand why Armstrong's Linoleum makes a permanent flooring when carefully

laid by a linoleum layer, and likewise why it is so resilient, so foot-easy to the tread. You also will know why it deadens noise—because cork deadens sound.

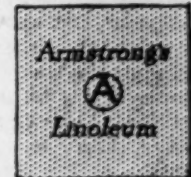

Only those who have actually used linoleum, however, know the work it saves.

### Why linoleum is easy to clean

The linoleum floor is smooth. It contains no cracks for dirt to collect in; therefore, none for germs to breed in. It requires no scrubbing. Surface dirt is readily wiped away. A thorough waxing

strong's Linoleum you will find beautiful plain colors and two-tone Jaspé effects, also marble inlays, tile inlays, and neat matting and carpet patterns in printed linoleum.

These offer beautiful backgrounds for your rugs and enhance the decorations of your rooms. You can buy linoleum suitable for any room or any color scheme.

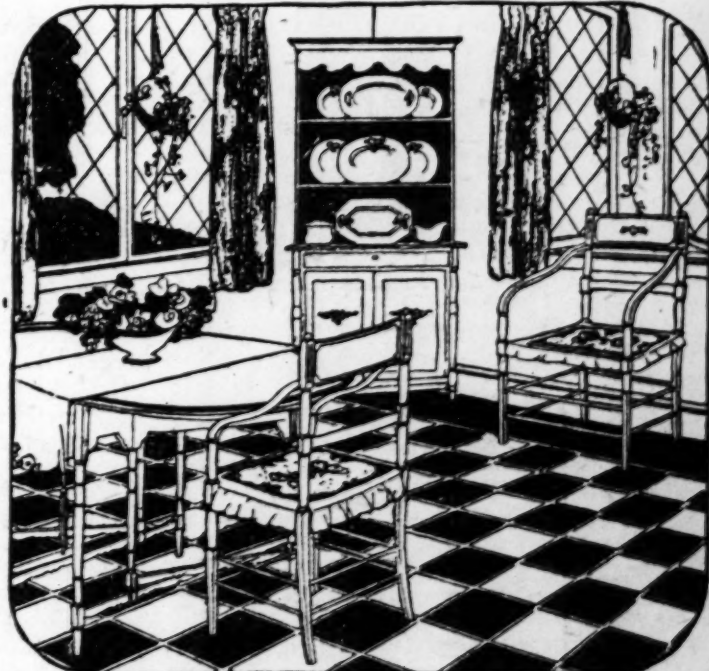

Look for the Circle "A" trademark on the burlap back

### Laying linoleum for permanency

In summer, wood floors expand. In winter, they dry out and contract, with a tendency to open up the cracks between the boards. Your linoleum floor, therefore, should be cemented (not tacked) over a lining of builders' deadening felt which has been previously glued to the bare floor boards. The felt takes up expansion and contraction and gives you a permanent, waterproof, good-looking floor. The added service and wear this method gives are well worth the extra cost.

### Write for free sample and booklet

Let us send you a sample of Armstrong's Linoleum and our 24-page booklet, "New Floors for Old," containing a score of color-plates of distinctive designs that you can see at good furniture and department stores—Jaspés, carpet inlays, tile inlays, and printed patterns; linoleum rugs, printed and inlaid. Information on laying linoleum floors, their care, and the names of merchants who sell Armstrong's Linoleum and do good laying, will be included.

A modern breakfast room which has a floor of Armstrong's Inset Tile Linoleum

when first laid, a daily dust-cleaning with a slightly waxed mop, and an occasional rewaxing are ordinarily all it needs. Then you have a permanent floor as well as a permanently spick and sanitary floor. And though it is a glowing, polished floor, it is yet a nonslippery floor. It is also a warm floor, fully as warm as wood, when your feet touch it on winter mornings.

### See the designs at good stores

Then, there is the beauty of the new linoleum designs and colorings. In Arm-

# The Man on the Sandbox

## A DUMB BELLE.

THERE was a young star of the screen—  
A wonderful Hollywood queen;  
She had beauty and youth,  
But, to tell you the truth,  
She hadn't a brain in her bean.

### THE PLAY'S THE THING.

When Jack Dempsey was shoved  
We can hardly wait for Mary and back on to the platform by a re-  
Doug's version of Romeo and Juliet—porter it wasn't the first boost he  
et. Can't you just see Doug mak- ever received from a newspaper  
ing a flying leap into that balcony man- without touching anything but the  
air?

And when the Montagues and  
Capulets start their little survival-  
of-the-fittest he'll take a run and  
jump over both their houses.

Shakespeare may have been good  
but most any of the present day  
scenario writers can make a mon-  
key out of him. Ask Peter B.  
Kyne.

The man on the sandbox says  
that every day in every way the  
human race is getting faster and  
faster.

### TOO TRUE.

"THIS Firpo has no left-hand  
punch."  
They said before the fight:  
But Dempsey will inform the world  
He throws a wicked right.

### TODAY'S FABLE.

Jack Kearns says that he was  
not the least bit worried when  
Dempsey was knocked through the  
ropes.

Incidentally on that occasion  
Jack pulled one of the greatest  
come-backs in the history of the  
ring.

### YOU BET.

The man on the sandbox says  
you can make fun of suspenders  
but they are still holding their end  
up.

Boosting Dempsey is one of the  
easiest things a sport writer does.  
Comes natural. No trouble at all.

Now if it had been Firpo that  
would have been different. The re-  
porter is the guy who would have  
been in need of first aid to the  
mangled.

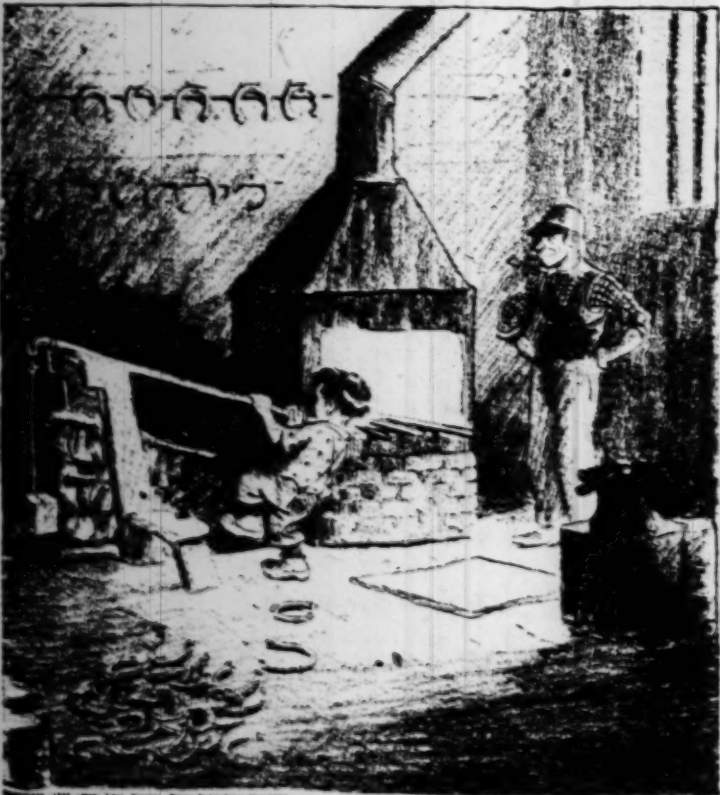

If a guy were seated at the ring  
side tending to his business of  
transferring his impressions of  
what was going forward from his  
bean to his typewriter, and a wild  
bull were to fall out of a clear sky  
into his lap it would have a ten-  
dency to wreck his train of thought  
to say the least.

Baseball Manager—Yes, we have  
no bananas; but our scouts report  
that we may expect a large consignment  
of lemons for spring delivery.

"Jack Dempsey admitted after  
he bout that his title hung by a  
thread at the end of the first  
round." Well, we wouldn't go that  
far, Jack, but it did seem to be  
hanging by a rope for a few seconds.

In the cool, calm light of reason  
after the smoke of battle has cleared  
away and the glamour and excitement  
of the occasion no longer  
warps their judgment, the ring ex-  
perts have to come to the unani-  
mous conclusion that Luis Firpo  
would be a great fighter if he  
knew how to fight.

### "AND NEVER THE TWIN SHALL MEET."

Years ago President Roosevelt was making one of his speech-making  
swings through the West. The special train bearing the presidential  
party was roaring through a canyon in Montana on the way to Butte.  
One of the newspapermen aboard had never before been in this part of  
the Union.

As he stood on the rear platform of the observation car, observing  
the scenery, he saw, on the farther side of the vast ravine, a succession  
of curious-looking orifices in the face of the gaunt mountain. Distance  
diminished these apertures to minute dimensions, but it was evident,  
even to his inexperienced eyes, that they were artificial and not natural.  
Yet about them was no sign of human life. Seemingly they had been  
abandoned for a long time, as the piles of debris at their mouths were  
grown up with young bushes.

The newspaperman turned to United States Senator Carter of Mon-  
tana, now deceased, but then a power in his own State, and in national  
politics.

"Oh, Senator," asked the curious one, "would you mind telling me  
what those funny-looking openings in that cliff yonder are?"

Carter cocked his eye in the direction indicated by the reporter,  
and the eye twinkled.

"My son," he said, "those are what are known in the West as holes  
in the ground and in the East as permanent mining investments."
